

Welford Bob Doubles

Purpose

Welford is a method where the fifth place bell does repetitive simple work, alternately making long fifths and long thirds from the back. This provides an opportunity to develop ropesight because long fifths will be over two bells dodging. Long thirds are made over two bells making places.

Ringing Welford Bob Doubles

The treble plain hunts.

Fifth place bell:

- Makes long thirds (4 blows)
- Makes long fifths (4 blows)

It starts with wrong blow in fifths.

Bells 2, 3, and 4 ring the method.
