

## **48 Call Changes**

Using bells 4 and 5 as whole hunt bells and bells 1, 2 and 3 as extreme bells, alternately call the 5th and then the 4th to lead.

Each time one of the whole hunt bells is leading swap either the first two or the second two extreme bells.

- If 5 is leading swap the first two extreme bells.
- If 4 is leading swap the second two.

When the extreme bells are in the order abc then a and b are the first two, and b and c are the second two.

	1	2	3	4	5	6
4 to 5	1	2	3	5	4	6
3 to 5	1	2	5	3	4	6
