
Grandsire Singles

Purpose

Grandsire Singles is a very simple three bell method which can be rung by an inexperienced band who are capable of ringing Plain Hunt on three.

There are clear treble signposts.

A ringer learning Grandsire Doubles could use this as an opportunity to practise making the Grandsire single.

Ringling Grandsire Singles

The treble plain hunts to third place.

2 and 3 make alternate seconds and long thirds.

Second place is made whenever the treble leads.

Long thirds are made when turning the treble from the back.
